

Can't remember how to add the Easy Time Clock Browser to new computers? No sweat! Follow these steps from your Admin account.

Setup tab, Clock In Restriction

Grant Access By Easy Time Clock Browser Help
(To limit access to individual computers)

After you create an Activation Code, view it and go to the [Downloads](#) page and click on "Easy Time Clock Setup" to download the program to your desktop. Use your Company Login of **BusiCo** and the activation code.

Activation Code	Computers	Activation	Username	Office Location	Email	Text	Remove
1924	0	Pending	All Usernames ▾		To Employee	To Employee	<input type="checkbox"/> Remove
Activation Code New Activation	Computers 10		Username All Usernames ▾	Office Location			

Click "Display Code" to view the activation code you will need for unlocking computers.

If you see 0 here, adjust the value to the number of additional computers you wish to use this activation code.

Save Changes

Activation Code	Computers	Activation	Username	Office Location	Email	Text	Remove
Display Code	10	History	All Usernames ▾		To Employee	To Employee	<input type="checkbox"/> Remove

Now you see the activation code can be used for 10 additional computers.

You can choose to send directions, including the activation code, either via email or text.

For further assistance with Browser, contact Customer Service.
