Wi-Fi Network Setup

Creating a Password File Manually

- 1. Insert a USB flash drive into your computer.
- 2. Right click on an empty space on the computer desktop.
- 3. Choose New > Text Document

File is saved as updataoptions2.cfg

with contents: WirelessKey=YourPassword.

.....

4. Skip naming the file for now

8.

5. Open the file and type WirelessKey= followed by your network password. There should be no spaces, unless

ŀ

your network password includes a space.

updataoptions2.txt - Notepad ***	_		×
File Edit View			ŝ
WirelessKey=yourpassword			
Ln 1, Col 25 100% Windows (CRLF)	UTF-8	3	

- 6. File > Save As > Choose the USB drive
- 7. Name the file "updataoptions2" and keep it set to a .txt

Save	File name: Save as type:	updataoptions2.txt Text documents (*.txt)	~
	de Folders	Encoding: UTF-8 Save Cancel	

- 9. Exit the file and right click the icon and choose "Rename."
- 10. Keep the file name the same, but replace the ".txt" with ".cfg" to create a configuration file
